BREEDING AND THE BOOKMAKERS

As our annual Stallion Issue goes to press we are confronted with the most prosperous picture which the Thoroughbred breeding industry has ever enjoyed. The prices for high class bloodstock have been little short of astronomical, the sales of the Woodward stock particularly having broken all records. The yearling sales of 1955 strikingly illustrated the upward trend. Stallion books for 1956 have filled more rapidly than ever.

By way of contrast breeders in England, the country which developed the Thoroughbred breed and which for 150 years maintained a virtual monopoly of the world export trade, are anything but pleased with prospects in the "tight little isle". Some of their pessimism stems from the failure of British horses to turn back foreign contenders for recent classic races. More serious and more fundamental, however, are the low earning opportunities for British racehorses as compared with those for horses in other countries.

The prosperity of the breeding industry rests squarely on the amount of money distributed in race track purses. The prices of yearlings, weanlings, broodmares and stud fees all depend on how much horses can earn when they get to the track. Purses in turn depend on the amount of money bet, on the size of the "handle" as it is called. One would therefore suppose that British purses would be ample since a higher percentage of the population in Britain plays the races than in any other country in the world.

Bookmakers are the reason for the discrepancy. In England bookmakers have secured a strangle hold on racing. They own race tracks, horses, concessions, stallions, broodmares, stud farms and training quarters—as well as their places of business. A certain amount of money goes through the "tote", but the lion's share is handled by the bookmakers, many of whom pay "tote" prices plus 10%. Since purses are largely dependent on the percentage of "tote" money received by the track, the consequences are obvious. It has recently been calculated that because of low purses English owners contribute in entry fees about 40% of the money they run for. In France, on the other hand, where almost all betting is through pari-mutuel machines, owners contribute only 6% of the purse money. In New York state during 1955 owners contributed only \$799,470. of the \$9,502,010. distributed in purses or less than 1%.

What has all this to do with American stallion and mare owners? A great deal. Because of modern transportation facilities Thor-

oughbred breeding, and racing as well, has become an international operation. We not only utilize blood lines from all over the world, but we also depend on them. The diversification of racing conditions in different countries has produced a consequent variation in transmittable racing abilities all of which are contributing to the excellence of the American Thoroughbred. The troubles of English breeders, who for so long have supplied this country with many of our most valuable strains, are also our troubles. Let us hope that a successful solution will soon be forthcoming.

Letters

Lyne Appreciated

Dear Sir:

You will be pleased to know that Michael Lyne got two orders for pictures due to the publication of "Young Entry". One from Mrs. Daniel McKeon, wife of the M. F. H. of Golden's Bridge and one from Mrs. Sluttes, M. F. H. of Essex. Thanks to your great kindness.

Very sincerely,

H. Edward Dreier

Dear Sir:

Having had scant time recently to read my **Chronicle** thoroughly, I don't know whether or not you have had occasion to comment upon the passing of one of the finest of the old foxhunters of this country, H. Edward Dreier. He died early on Thanksgiving Day, and his funeral services were held in the Presbyterian Church of Smithtown two days afterward.

If you personally did not know Ned Dreier, you would not realize the esteem in which he was held by his contemporaries in the hunting field. Mrs. Dreier's mail has been filled, since her husband's passing, with letters extolling his courage, his skill as a horseman, his humor, his integrity, and the qualities of thoughtfulness and fine sportsmanship that made him loved and honored. He hunted actively until he was in his seventies, particularly with the Smithtown Hunt, the Meadow Brook Hounds, and near his Red Gate Farm at West Chester, Pa. He also hunted widely abroad, particularly in Ireland.

You might find it proper to include in any eulogy that you might print, the following lines written by his daughter Nanette (Mrs. Garrett R. Stearly):

H. E. D.

Now he is gone.
He took his last fence on Thanksgiving morn.

No hesitation his, no words to say,
Simply a clean jumped panel, and away!
He must have heard the Master's Hunting Horn.

Very truly yours,
Ward Melville

Raleigh Burroughs

Psychiatrists tell us that if we meet our fears calmly and realistically, we will find that they are more fancied than real, and that, exposed to the brilliant light of sensible appraisal, they will shrivel up and vanish.

Marriage counsellors advise that exchanges of confidences between the involved parties leads to harmonious wedded life, though it is very easy to carry this too far.

So under the influences of great minds we are bringing problems and fears out into the open and find them insignificant with relation to the cosmic scheme.

In a word, we are being more frank.

Years ago, if a prospective summer-cottage renter inquired, "are there mosquitoes?" the lying landlord would have declared, exuding honesty, "Absolutely none!"

Today, he answers casually, also exuding honesty, "Oh yes. Some." His complete frankness causes the client to conclude that, though there are mosquitoes, nobody notices them. He has been honest and open. He is in no way obligated to mention that last season a fighter squadron of anopholes roared in and made off with a nine-month-old child, after draining the lifeblood from the St. Bernard that was standing guard.

Racetracks, too, are falling into line in this trend toward facing reality. At least one is.

Tropical Park features a foible of the Florida climate that, a few years ago, would have brought maledictions from chambers of commerce and might well have led to someone's being ridden out of town on a rail.

Tropical has a race called the Hurricane Handicap.

For years, the term "hurricane" has been considered a dirty word by promoters of the Sunshine State. They have passed it over quickly or treated it casually, like the fellow trying to rent his summer cottages.

Now they're bringing it out into the open and honoring it.

And it's done a world of good.

Since 1952, when the Hurricane Handicap was inaugurated, not one real serious meteoric disturbance has hit the East Coast of the State.

In 1954, when there was no renewal of the race, there was a rather nasty blow, but Tropical put the Hurricane back on the program the next year and the gales started going in through a few hundred miles farther north.

Some will try to tell you that this is mere coincidence, but I prefer to think like the psychiatrists—that if you bring your fears out into the open, they just melt away, or head for the Carolinas.

It will not surprise me a bit to see Santa Anita come out with a Smog Stakes or an Earthquake Handicap, or Bowie put on a Blizzard Purse, conditioned for horses wintered at Charles Town.

Incidentally, the University of Miami calls its football team "The Hurricanes", so the Florida people are being taught in school that evil is only in the mind.

Tropical Park

To be frank about it, the weather was cold on January 14, so instead of going

to the beaches the crowds swarmed into Tropical Park. The management, frankly, was pleased, as the most money ever stuffed through the windows of the Coral Gables palace of chance was handled that day. The amount was \$1,387,545.

A new daily double pool mark also went into the records—\$104,010. This knocked over the all-time-high figure that had been set a week before.

The Fred W. Hooper entry of Hoop Band and Flying Bird collected first and second money in the Hurricane.

Hoop Band (Hoop Jr.—Patricia P., by Pilate) beat his stablemate by half a length. The latter was a neck before Oh Johnny, which led Pete's Folly by a half.

Flying Bird set the pace in the 1 1/2-mile event, with Oh Johnny, Pete's Folly and The Goon keeping the pressure on.

Hoop Band was last after the first quarter mile had been run.

He moved up gradually, and Jockey Bob Ussery (stick with Uss) found a hole on the inside and went through.

Ted Atkinson, Oh Johnny's rider, claimed a foul and, when it was not allowed, horse fans from the north booed just to keep in practice.

Racing Review

Continued From Page 1-A

The win was worth \$7,850 (plus \$2,000 second money) to owner Hooper, who won a Kentucky Derby with the first racehorse he ever owned. That was Hoop Jr., sire of Hoop Band.

In 1955, as a two-year-old, Hoop Band won 6 races, including the Alligator Handicap, was second in 5 and third in 2, in 21 starts. His earnings totaled \$32,185.

Santa Anita

Another Saturday (January 14) and another big day at Santa Anita. Co-featured were El Encino Handicap at a mile and a quarter on the turf, and the 1 1/8-mile San Fernando Stakes.

The grass event was for horses four years old and up and the Fernando excluded all except four-year-olds.

As the latter race carried \$5,000 more in added money (\$25,000) it must have been the feature.

Sunnyside Stable's Beau Busher was the surprise winner, with the favored Traffic Judge taking second place. Honey Alibi and Golden Land were next in line.

Jackie Westrope got Beau Busher to the front at the break and kept the lead to the end. When Traffic Judge made his big move coming to the stretch, Beau Busher made a bigger one. He galloped out from a margin of one length to a safety factor of three lengths at the wire.

Traffic Judge carried 122 pounds, Beau Busher 118.

The winner, by Mr. Busher, from Late Date, by Hourless, paid a mutuel of \$41.90. The race was the medium of his first 1956 start.

Last year, when he was a three-year-old, Beau Busher won \$63,200 by coming in first twice, second 3 times and third 3 times in 13 tries.

Free Stride, property of Mr. and Mrs. B. Martin, took the winner's share of El Encino—\$14,350. Bright Liberty was second, Darby Danbury, third and Minata, the favorite, fourth.

The payoff on the winner was \$12,40. It was his second 1956 win in 3 tries. He was third the other time out. His win gives him earnings of \$18,400 since the old year was rung out.

Last season he won 4 races and \$14,250.

El Encino was conditioned for horses which had started in a claiming race of \$15,000 or less in '55 and '56. It was an optional claimer with the owners permitted to hang out \$15,000 price tags if they wished.

Free Stride was not for sale in the race.

It was a mild surprise when Neva T. rushed up to grab the prize in the Santa Ynez Stakes, on January 11. She paid \$13 in the mutuels. C. T. Chenery's Scansion had been going well and was made the choice, and Llangollen's Tipper went into the race undefeated. Scansion ran a dull race and ended up last in the field of eight. Tipper performed well enough but seemed slightly overmatched. She finished fourth. The race is six furlongs and is for three-year-old fillies.

Mrs. Muriel L. got out in front early, and Yutta chased her all the way. Neva T. was slow in getting off. She was in sixth place with a quarter of a mile to go (The race was at three-quarters.)

Coming around the turn, Neva T. began passing horses and went by the two leaders just before hitting the wire. Mrs. Muriel L. was second, Yutta, third, and Tipper, fourth.

The \$10,350 she earned put Neva T.'s total for 1956 at \$11,250. She has a second besides her win in 1956.

Last year she collected \$21,275 from 5 wins, 1 second and 2 thirds in 16 starts. Continued On Page 47

THE EXPERIMENTAL FREE HANDICAP

For two-year-olds of 1955—Three-year-olds of 1956

For the fourth time in its 22-year history the Experimental Free Handicap is headed by a Thoroughbred which did its racing under the famous light blue silks and brown cap of Cornelius V. Whitney. Career Boy, a dark brown son of Phalanx bred and raced by the New York sportsman, received top weight of 126 pounds among the young Thoroughbreds which raced as two-year olds in 1955 and will be aiming for The Triple Crown and other three-year-old classics in the coming racing season. The listing was compiled by Frank E. "Jimmy" Kilroe, handicapper and racing secretary of The Jockey Club and appeared in the January tenth issue of the club's official publication, *The Racing Calendar*.

Second place in the weight is shared by Mrs. Anson A. Bigelow's Nail and the D & H Stable's Needles at 125 pounds apiece. Elmendorf's Prince John, at 124, and E. Gay Drake's Swoon's Son at 123, complete the top five in the ratings with only three pounds separating the quintet. There is only one closer grouping of the top performers since the Experimental's inception in 1933 and that was when Whitney's Red Rain was the top weight among six thoroughbreds within a 3-pound spread in 1935.

The weights scale down to a low of 104 pounds and include 118 names, of which 28 are fillies. The total number weighted is 4 more than last season, but well under the record 130 set in 1944. Tops among the fillies are Clai-

borne's Doubledogdare and Howell E. Jackson's Nasrina, both assigned 116 pounds. They are actually tied for sixth place on the list when the five pound filly allowance is considered.

The Experimental, which is basically an expert's opinion of how last year's juveniles will fare in the coming year's races, was started in 1933 by Walter Spencer Vosburgh, but no list was published in 1934 following his death. John Blanks Campbell, assumed the task in 1935 and continued it until his death in 1954. Last season Kilroe drew up his first Experimental and assigned Summer Tan top weight of 128 and Nashau 127.

While the listings is of nationwide interests and is used as a guide by the Thoroughbred breeding industry, the Experimental is also an actual race. Run first in 1940 the unique racing event is annually the first stakes for three-year-olds on the New York program and is at the six furlong distance.

Career Boy was foaled at his owner's Lexington, Ky. farm on May 11, 1953. His sire, Phalanx, was 8th on the 1946 Experimental with 122 pounds, and his dam, Swanky, is a full sister to First Flight, the Whitney filly which led the list with 126 pounds (131 with the allowance considered) the same season. He is spending the winter on the same farm where he was foaled and his trainer, Sylvester Veitch, recently said, "He's in fine shape. He has grown and filled out well and acts like he knew he was the

topweight. He's been jogging and galloping all along and will ship to the training grounds at Camden, S.C. in about 2 weeks. After that, of course, his next stop is New York for the opening of the season on April 2."

Five unsuccessful starts preceded Career Boy's first win, which came on the opening day of the 1955 Saratoga meeting, August 1. He came right back five days later to score his initial stakes success in the U.S. Hotel. He ran unplaced to Polly's Jet in the Saratoga Special and then took his other '55 stakes victory—Saratoga's Grand Union Hotel. In his fifth race during the month-long meeting at the Spa he lost to Needles in the Hopeful.

Career Boy was then pointed for The Futurity. His next start was eight days before the big Belmont event and it may have been his best race of the year. Competing at six furlongs, he waited until two-thirds of the race was over before passing any of his seven opponents and then in the final quarter made up approximately ten lengths to win.

The Whitney colt will have to live up to his reputation in the coming season as the three colts closest in the weights all hold important decisions over him. Nail won The Futurity with Career Boy four lengths back in sixth place; Needles won the Hopeful with the Whitney colt three and a half lengths astern, and Prince John eked out a nose victory in

Pictorial Stallion Roster

FOREWORD

The three major factors involved in Thoroughbred breeding are Performance, Pedigree and Conformation, not necessarily in that order of importance. While many books and periodicals furnish reams of material on the first and second factors, the latter is often neglected. And this factor can completely outweigh the first two. Breeders when planning matings should consider the individual conformation of their mares in relation to the stallions they have under consideration. If any of the mares have structural defects, stallions which may correct these faults in the resulting foal should be given preference. More and more Thoroughbred breeders are taking pages from other livestock breeders who strive for an ideal type.

In an effort to assist breeders The Chronical publishes this pictorial stallion issue section. While it is not the final word, it may serve as a guide to the mare owner who would spend valuable time inspecting stallions structurally unsuited to his mare, and should encourage many to ship to horses of superior conformation.

These photographs were solicited from stallion owners and a few were taken from The Chronicle's files. Following the name of each stallion is the page on which his picture appears, his color, year foaled, his breeding, and either the farm where he is standing or the name and address of his owner.

Just A Bit Jealous

Sure, everybody seems very happy about Nashua being at Hialeah, including Nashua. But a little Irishman name of Tommy Wynne, from County Mayo, isn't too happy at all. He is jealous—and not for himself.

Tommy, a very personable and articulate little guy, has been deeply in love for two years with a darlin' colleen—a beautiful, blue-blooded, gray-haired, proud young lady, and quite rich, too.

Her name? High Voltage, champion juvenile filly of 1954 and top sophomore filly of 1955 in one nationwide poll.

In two other polls, she was runner-up to her stablemate, Misty Morn. Both are owned by Wheatley Stable (Mrs. H. C. Phipps) and, like Nashua, the two queens are trained by Sunny Jim Fitzsimmons. Between 'em, they've earned \$558,440—High Voltage \$347,790 and Misty Morn, \$210,600.

Tommy Wynne has good reason to love High Voltage. He's her private chauffeur—her exercise rider, with or near her around the clock. And he thinks "his" filly gets the brush because of the spotlight which has been on Nashua. When the horses arrived here recently, High Voltage and Misty Morn went almost unnoticed. Any other time, they'd have received the big to-do given to champions.

When they were placed in their stalls, with Nashua hammering it up beneath a huge imitation horseshoe inscribed with "Hy Champ—Welcome to Hialeah!" Tommy piped to stable foreman Bart Sweeney of County Tipperary:

"Just look! The King gets all the cake. What about the Queen?"

Last June at Delaware Park, where High Voltage won one of her five 1955 stakes—the Delaware Oaks—Tommy declared without bat an eye "his" filly could do anything Nashua could do, or words to that effect. Speaking in a brogue thick as the blarney stone that you could slice with a shillelah, b'gorra, Tommy says of his love:

"She's a real sweetheart. No bad faults or habits, a perfect lady, easy to handle. Does what I ask her, and understands me. She doesn't always relish visitors

fussing over her; depends upon her mood of the moment.

Sure, Nashua's a great colt, and Misty Morn's a grand filly I've galloped her, at times. She won five stakes this year, too, but none at two when High Voltage was a champion. I've got nothing against Nashua and Misty Morn, but this gray one, here—my sweetheart—she's the Queen. With me, anyway."

"Seriously, it would be asking a bit too much of the filly to compare High Voltage with Nashua. As for the two fillies, right now I'd just as soon say I'd choose High Voltage up to a mile-and-a-sixteenth, and Misty Morn at longer distance. High Voltage is bigger than Misty, but more dainty and not as tough; can't take it like Misty and doesn't like being crowded in a race. But, I've been with Mr. Fitz since 1929, and never has a horse in the barn appealed to me like High Voltage."

—Fred Hayden.

Kicked Out The Goat!

Until he went over to contest the Belmont International Chase, Miss Dorothy Paget's Prince of Denmark had a goat as an inseparable companion. I well remember the day when the goat was loosed to welcome "the Prince" on the way to the winner's enclosure—to the horror of the second horse who headed off at speed in the opposite direction!

After the two journeys across the Atlantic the happy friendship broke up, for on his return Prince of Denmark

unceremoniously kicked the goat out of his box and made it abundantly clear that he was no longer prepared to share it with him.

But he evidently runs no worse without a stable companion to wile away the hours for when only two days short of his thirteenth birthday he won the Kingsclere Handicap Chase over two miles at Newbury by six lengths, carrying top weight of 167 lbs.

Whitney-Owned Hurdler

A nice Christmas present for Jock Whitney, even if three days late, came from his three-year-hurdler Square Shooter at Cheltenham on 28th December when he won the two mile Evesham Hurdle, for which he started a 6-4 favourite.

Taking the lead at the last flight, the chestnut gelding stayed on gamely to defeat the French-bred Segnor IV by three-quarters of a length.

Bred in the United States at Greentree Stud, Inc. Square Shooter is by Shut Out—On the Level, by Sickie, P.T.C.

Maryland Conversational Piece — Is "Old Hill-Top" To Be Scrapped?

Snowdon Carter

Winter weather may be causing idle chatter, or it may be that a deal is really in the works. But whatever the cause, there is no doubt that Pimlico is the big conversational piece in Maryland these days.

Scarcely a week goes by that another story isn't heard about how the old Maryland Jockey Club course is to be scrapped, its dates being transferred to Laurel and Bowie.

Pimlico's owners, the brothers Ben and Herman Cohen, take time out from their real estate (and television) business to deny each new report, but where there is so great a pall of smoke musn't there be just a little fire?

The most persistently repeated story is that Pimlico is to be purchased for a price of approximately \$5,000,000. Laurel and Bowie are to split Pimlico's annual 33-day racing season, and for this each track is to pay \$1,000,000.

The remaining \$3,000,000 is to be gain-

ed from the actual value of the track's property which sits within a tightening vise of stores, hospitals and residential developments.

Such a deal would give the Cohen brothers a \$20,000,000 profit on a three-year investment. Courageous, indeed, would be the real estate operators who would reject such a bonanza simply to assure the maintenance of racing at its present Baltimore city site.

But the deal is denied, both by the owners and the alleged purchasers.

Said Ben Cohen, when questioned on the latest report:

"We have had no offers for Pimlico and we've asked for none. There is no deal on the fire."

Said John Schapiro, Laurel's president: "I don't know anything about it."

Said a Bowie official:

"The last rumor I heard was that Lou Pondfield (Pimlico's vice-president and executive director) was trying to buy Bowie."

So reports come and go. The newspaper reporters check out each story, get the expected denial and form their own conclusions.

The denouement won't be long in coming, though.

If Pimlico is to follow the fate of Havre de Grace, a bill must be passed by the Maryland Legislature authorizing the transfer of its dates to Laurel and Bowie.

The Legislature convenes in February and the session will last for 30 days.

So if a seemingly harmless bill comes up which calls for such authorization, the racing world will be able to draw its own conclusions.

My guess as to the master plan for the future of Maryland racing is that Bowie will operate entirely in the spring and Laurel largely in the fall.

I think Bowie will open the season each year in early March with a 50-day meeting. Laurel will follow with an approximate 15-day session. Then Laurel will operate again in the fall, running for 35 days—a few days in October, all of November and a few days in December.

What would happen to the Preakness, Dixie, Special, Futurity, Marguerite, Gallorette, Black Eyed Susan and other annual features? That's anybody's guess, but one thing is certain: The Preakness will bring top dollar.

A race like that has a substantial cash value, and the Cohens didn't make their fortunes by passing up opportunities.

14th annual meeting of the membership at the Hotel Fontainebleau.

Tompkins and Mori will fill chairs vacated by John A. Morris, formerly president of the Metropolitan Jockey Club, and James Butler, a director of Aqueduct, which were among the associations absorbed by the GNYA.

Earlier this year Tompkins had resigned as executive vice-president of the Bankers Trust Company to assume administrative command of the newly formed Greater New York Association. Tompkins retained his seat on the Board of Directors of Bankers Trust Company and is also director of numerous concerns.

Eugene Mori is returning to the TRA Board of Directors having previously served between 1943 and 1953. Mori entered racing in 1942 when he opened Garden State Park near Camden, New Jersey. A few years later he took control of Tanforan, California and this year he assumed the operation of Hialeah.

In addition to his race track interests Mori races a stable of horses including this year's outstanding filly Cosmopolitan.

Drayton Comments on Protective Bureau

Spencer J. Drayton, head of the Thoroughbred Racing Protective Bureau, took issue at the TRA Convention in Florida with a certain few racing commissions which licensed two former jockeys despite strong opposition from his organization.

Making his tenth annual report to the Thoroughbred Racing Association's membership of forty major TRA tracks at the Hotel Fontainebleau, Drayton said in reviewing the TRPB special report program on '59 individuals who are guilty of such serious offenses as to have materially injured the sport" that "These two former jockeys have perpetrated such frauds on the public as to warrant their continued expulsion from racing . . . It is my firm belief", Drayton continued, "it is only by keeping out such individuals that we are going to be able to insure integrity in racing."

In reviewing the first ten years of operation, Drayton reported that his organization has investigated 10,595 cases resulting in the denials of licenses and suspensions of many hundreds of individuals. By the same token, Drayton, reported that many thousands more have been granted licenses and clearances based on reports of his investigations.

Drayton reported that "scores of background investigations on individuals desiring to enter racing are now made each year and the volume of such investigations has increased ten times during the last ten years."

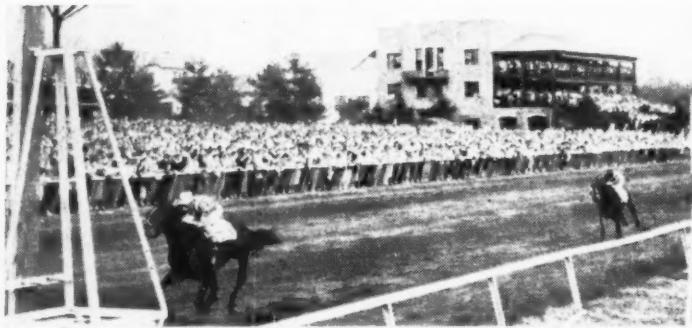

Drayton revealed that the lip tattoo method of horse identification which has eliminated the ringer problem at TRA tracks, is becoming international in scope with the adoption of this identifying system by Canada, Puerto Rico, Peru and Venezuela. Since the program was first instituted in 1947, the TRPB has lip tattoo branded 53,874 thoroughbreds Drayton reported.

Citing 84,636 sets of fingerprints in the files, Drayton said "The fingerprint program continues to be one of the most effective preventative steps Thoroughbred racing has taken to guarantee the reputable backgrounds of those engaged in the sport."

Stallions For 1956

Imports Prominent Among the Thirty-Eight Horses Slated To Enter Stud

Frank Talmadge Phelps

A total of 38 new stallions have been announced as entering stud in the United States for the 1956 breeding season. This number includes only those announcements made by Jan. 1, and no doubt a few late retirements will add to the ultimate total.

Among the new stud recruits, as is true with every crop of new stallions, are some of the best runners of recent times; and others with racing records for one reason or another less distinguished, but with pedigrees or demonstrated promise that has led to their being given a chance at stud.

Included in the group are seven imported stallions, some of which raced in this country. Other imports have stood abroad before coming to America, but are included if this is to be their first stud season in this country.

However, excluded from this list of freshman sires are certain other foreign stallions which have been purchased by American interests, but which will stand the 1956 season abroad before crossing the seas in time for the 1957 season.

Seven sires got two of the new stallions apiece. These dual "sires of sires" are *Blenheim II, Bull Lea, Count Fleet, Errard, *Heliopolis, *Nasrullah and Roman.

Each of these popular sires of new stallions has at least one son standing his initial stud season in Kentucky this year. Both new stud recruits by Bull Lea, *Heliopolis and *Nasrullah will hold court in the Blue Grass State.

New Jersey accounts for the other sons of *Blenheim II, Count Fleet and Errard.

The second new stallion by Roman will stand in Pennsylvania.

Two mares produced two of the new stallions apiece. These dual "dams of sires" are Fire Falls and Glen Line.

The half brothers out of Glen Line are imports who will take up their breeding duties in Kentucky.

One of the half brothers from Fire Falls will enter stud in California and the other in Washington.

The new stallions of 1956 are scattered through 11 States, seven of which have a single fresh stud recruit apiece.

As usual, Kentucky, with half the total, leads all the States in number of new stallions. California with five, Virginia with four and New Jersey with three are the only other States with more than one freshman stallion.

Because of the vast extent of the modern American breeding industry and the consequent heavy annual crop of new stallions, space will permit here only the briefest notes on each. They are listed below in alphabetical order under the respective States where they will stand.

CALIFORNIA

California's five new stallions for 1956 are the greatest number for any State except Kentucky.

Included in the quintet are a pair of Irish imports.

Two of the California' stud recruits will stand at C. H. Jones and Sons Ranch (the former Naylor and Sons Ranch), Riverside.

The new California stallions are:

four; and Santa Barbara and Autumn Handicaps at five. Third in Kentucky Jockey Club Stakes at two. Named best sprinter of 1955. Preferred fast track from six furlongs to 1 $\frac{1}{8}$ miles.

Sire great runner in Australia. Also sire of Brush Burn, High Scud, First Aid, Ganisboro Girl, etc.

Owner, Edwin Janss, Jr. Standing at Conejo Ranch, Camarillo.

COMBAT BOOTS, Our Boots leading money winning son, won \$142,055 in 5 seasons of competition. The handsome stakes winner had the ability to carry his speed from 4 1/2 furlongs to 1 1/2 miles, and raced always against the best in the handicap ranks. Combat Boots won or placed in 15 handicaps including the Manhattan, Merchants' and Citizens' (twice), Questionnaire, Whitney, Chance Play, Monmouth, Aqueduct, Flager, King Philip, Buckeye, Alcedo Handicaps. In these races Combat Boots defeated such as County Delight, Oil Capitol, Alerted, Yildiz, Greek Ship, One Hitter, Battlefield, Pilaster, Indian Land, Kaster, Common Cause, Andre, Brown Booter, Sonic, *Chicle II, Nullify, Three Rings, Donor, Ancestor, Auditing, etc. Combat Boots is a member of Family #4 which has sent out 73 \$100,000 winners ranking second among the outstanding producing families.

OUR BOOTS, sire of Combat Boots, was a winner of The Futurity in 1:15 3/4, a maiden 5 furlongs race in :59 1/2, a 6 furlongs allowance race in 1:10 3/4. At 3, he won the 1 1/4 miles Blue Grass Stakes over a muddy strip and the 1 3/16 miles Yankee Handicap in 1:58 3/4, carrying top weight of 122 lbs. At stud he is the sire of such standout horses as Combat Boots, Lady Dorimar, Page Boots, Sport Page, His Boots, Crystal Boot, Brown Booter and many others. His sire, *Bull Dog, is recognized as one of the most dominant forces in our Thoroughbred picture today. Among his many successful sons at stud is the brilliant Bull Lea. Our Boot's dam, *Maid of Arches, was a winner of the Barrow Stakes in England and is a daughter of the good producer Rodomontade. The next dam, Fanfaron, won the 1 1/2 miles Ascot Highweight Stakes and produced the outstanding stakes victors Triumph and Hege-mony (also dam of the leading French-bred and English raced stayer Suzerain and Hoplite, winner of the 2 1/2 miles Goodwood Cup).

MISS DODO, dam of Combat Boots, was the 3rd high priced yearling filly by Man o'War sold at auction in 1936. A non-starter like so many of the top producing Man o'War matrons, Miss Dodo produced 8 foals which have started to date, 7 of them are winners including the outstanding Combat Boots. Her non-winner made only 3 starts as a 2-year-old before entering the broodmare ranks. Miss Dodo's dam, Cresta, by Whisk Broom II, was an excellent filly which raced only at 2 to win the Demoiselle and the famed Fashion Stakes and placed in the Keene Memorial to the noted Cherry Pie. The succeeding three dams all produced stakes winners and the next is the mare Maggie B. B., by *Australian, one of the great mares of America. She is the dam of the first American-bred English Derby winner Iroquois and is ancestress of such noted horses at Nearco, Man o'War, Sun Beau, Top Flight, Epinard, and Chase Me to mention only a scattering.

To Canadian Horse Breeders

The son of ROYAL CHARGER to enter stud service in 1956, standing at Dr. Chassels' Grandview Farm, R. R. No. 1, Willowdale (near Toronto).

This colt, named EL ROYAL — big — powerful, unraced son of ROYAL CHARGER out of ELOA was purchased at the 1954 Saratoga Sales for a fancy price, but has not raced due to injury received on farm in Kentucky (fractured bone).

If breeding lines or pedigree are considered, EL ROYAL could become an outstanding or top sire in Canada as he is a combination along the top line and the bottom line of today's most popular and successful sires and dams.

Looking at the above, you will note that ROYAL CHARGER'S sire was NEARCO and NEARCO was the sire of NASRULLAH. You will also note that ROYAL CHARGER'S grand-dam was MUMTAZ BEGUM — this mare being the dam of NASRULLAH.

EL ROYAL'S dam ELOA was the dam of FOXELLA, winner of several stakes in Ireland and also dam of winners in France. CHATEAU BOUSCAUT was the best three-year-old of his year in France, winning many stakes—including the French Derby, and also sired many high-class stakes winners.

EL ROYAL'S sire ROYAL CHARGER was the leading sire of two-year-olds in number of winners and races won in 1952; third on the list of leading sires in 1953 in England. Sire of *TURN-TO, *ROYAL SERENADE, HAPPY LAUGHTER, SEA CHARGER.

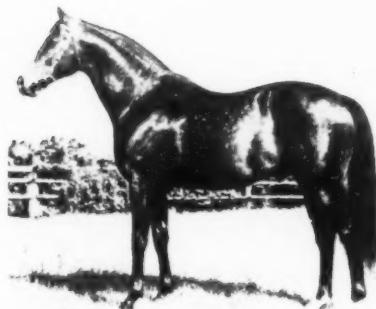

Terms: Guaranteed live foal. Fee: \$500.00, payable August 1st of year bred. Veterinarian's certificate due in lieu of payment if mare is barren.

BEAU DANDY is proving his royal heritage

BEAU DANDY the stakes winning son of the stakes winners Bull Lea and Some Pomp, by Pompey is now siring stakes winners. In his first crop which raced in 1944, Beau Dandy is the sire of the stakes winner Dandy Thought (Winnipeg Futurity, Osiris Juvenile Handicap, 2nd Kindergarten Stakes—4 wins and 1 second in 5 starts); the stakes placed Beau George (2nd to Canadian Champ in Coronation Futurity and 3rd Golden Spoon Handicap, Eye-Opener Stakes); the stakes placed Jillian's Beau (3rd Princess Elizabeth Stakes) and the winners Belle Dandy and Beau Pride. From 6 starters, Beau Dandy had out 4 winners and 1 placed—three of these were stakes performers.

BEAU DANDY'S auspicious start at stud is not surprising when you consider that on the race course he could sprint or go a distance. At Washington Park he spun 6 furlongs in 1:09½ and at Woodbine Park he established a new track record of 1:50 for 1½ miles. In Ontario he won the Canadian Championship, King Edward Gold Cup, Bryan and O'Hara Handicap, Autumn Handicap, jockey Club Cup and was second in Seagram Cup.

BEAU DANDY'S sire Bull Lea needs no introduction to Thoroughbred breeders, while his dam, the distinguished race mare Some Pomp produced 10 foals, 8 of which were winners and 4 of these were stakes winners. Beau Dandy is a half-brother to the outstanding race horse and sire Some Chance; the Acorn, Cinderella stakes winner and producer Proud Pomp; and the Arlington Lassie victor and producer Duchess Peg, etc.

WAR DOE a first class racing sire prospect

WAR DOE, a handsome son of the top race horse and leading sire War Jeep is out of the Grand Time mare Time o'Day. War Jeep, sire of numerous stakes winners, is the sire of Canada's 1954 "Horse of the Year", Queen's Own.

WAR DOE is an ideal type to sire hunters. He was senior champion stallion at the Royal Winter Fair and winner of the hunter stallion class at the Canadian National Exhibition. In his first crop of foals War Doe has compiled an enviable record. At the Toronto Horse Show his foals won 3 out of 4 prizes. At the Canadian National Exhibition, his Thoroughbred foals won first and second; his Half-Bred get were first and fourth. At the Royal Winter Fair, his Thoroughbred foals again won first and second and a reserve championship; his Half-Bred progeny won first and second.

WAR DOE is classified Grade A by Government Inspection.

difference

The Broodmare, the most valuable horse on the farm, requires the best nutrition because she is building new bodies. Medical science recognizes amino acids as the building blocks of the body . . . and WINN containing all of the amino acids known and used by science is therefore of the utmost importance to the mare, its fetus and the growing foal at its side.

WINN increases the strength and motility of the "Sperm", which insures greater conception potential and a strong healthy foal.

The Amino Acids in WINN

Glycine, Alanine, Serine, Valine, Leucine, Isoleucine, Norleucine, Threonine, Aspartic Acid, Glutamic Acid, Hydrazine, Glutamic Acid, Arginine, Lysine, Cysteine, Methionine, Phenylalanine, Tyrosine, Idogoric Acid, Thyroxine, Histidine, Proline, Hydroxy Proline and Tryptophane.

 the Garden State. Career Boy however, evened the score on other occasions, taking the measure of Prince John in the Garden State Trial and finishing one and fourteen lengths, respectively, ahead of Needles and Nail in the Garden State itself.

The three colts closest to Career Boy also have another thing in common: they were purchased by their present owners before racing. Nail was a product of the Saratoga Sales ring where a bid of \$20,000 by trainer G. P. "Maje" Odome was sufficient to buy the grey son of Nirgal; Needles was purchased privately as a two-year-old for a reported \$20,000 by J. C. Dudley and B. T. Heath, and Prince John went through the sales ring at Keeneland in the Summer of 1954 for \$14,300.

All three investments proved profitable, with all winning more than the \$118,424 compiled by Career Boy in winning 5 of 14 starts. Nail earned \$239,930, second highest earnings ever achieved by a two-year-old, in winning 5 of 8 starts. The three big wins which brought Nail closest to Hasty Road's 1953 record of \$227,132 were The Futurity (\$100,425), Jamaica's Remsen (\$64,425) and the Pimlico Futurity (\$67,980). Nail's only unplacing came in the Garden State.

Needles was never worse than fourth in a 10-race career which included wins in the Sapling and Hopeful Stakes. The bay son of Ponder became the first Florida-bred in history to achieve the \$100,000 mark in earnings when, in his last race of the year, he finished third in the Garden State. Needles' earnings are \$129,805 with 6 wins and 2 thirds.

Prince John earned the largest single purse of the year when he took down the \$157,918.50 of the Garden State. He earned more after that, getting \$10,000 finishing second to Nail in the Remsen, to bring his total to \$207,818.50 in 9 starts. Prince John is recovering from a broken bone in his right front foot, suffered in December. He is in Florida, as are Nail and Needles.

Swoon's Son had the money title sewed up until Nail won the Pimlico Futurity on November 19. Going to the post 13 times, the son of The Doge amassed \$236,705 by winning seven races and being out of the money only when disqualified from third place in the Hawthorne Juvenile. Swoon's Son, which did all his racing for owner-breeder E. Gay Drake in the mid-West, won the Bashford Manor, George M. Woolf Memorial, Prairie State, and the Arlington and Washington Park Futurities.

Weighted right after the leaders at 119 pounds are Career Boy's stablemate, Head Man, the winner of the Sanford and second in The Futurity; and Barclay Stable's Polly's Jet, winner of six straight races before meeting defeat.

The complete weights, composed of 28 fillies, 9 geldings and 81 colts, follows. Of the total 118 weighted, 61 were bred by their owners and 57 have changed hands since being foaled.

She won the Junior Miss Handicap in July at Del Mar.

Neva T. is by Toubo—Prisweep, by Sweeping Away. She was bred by J. J. Elmore and is owned by Chastian and Elmore. R. L. Anderson trains her.

Fair Grounds

The Pontalba Handicap was the main dish on the bill of fare at New Orleans on January and Super Devil took the big share of the purse, as many handicappers has predicted he would. Tonsina and Sweet Josie followed the winner home.

The race had a gross value of \$5,000 and there weren't any entrance fees.

Super Devil is a black horse, five years old, by Super Duper, from Diavolina, by Diavolo.

The Pontalba is a six-furlong dash.

King Ranch's High Gun Painted By Artist Jean Bowman

Through the medium of oils Jean Bowman has brought to canvas the outstanding race horse High Gun. The brown son of "Heliopolis—Rocket Gun" by Brazado was purchased by Trainer Max Hirsch for \$10,200 out of the 1952 Keeneland Summer Sales. Racing in the famous "running W" of Mr. Hirsch's patron King Ranch, High Gun was the "Best 3-year-old" of 1954 and the "Best Handicap horse" of 1955. In 24 starts the K. M. & W. P. Little and Cary Boshamer-bred colt won 11 races, earning \$486,025.

In his last outing before retiring to stud at King Ranch Farm in Kentucky High Gun ran perhaps his most outstanding race. This was The Sysonby at the "new" distance of 1 1/8 miles, when he came by the "overland route" to win by a head from Jet Action and Nashua. He also won The Belmont (in a heroic strength battle with Fisherman), the Sysonby Mile, Dwyer, Manhattan, Brooklyn Handicaps, the Metropolitan Mile, and the Jockey Club Gold Cup.
